

# Ready to dive into cutting-edge ocean technology?

The inspiring RoOT Summer School is your opportunity to gain hands-on experience and connect with industry experts!

Advance your career with hands-on ocean technology training: The RoOT Summer School offers a unique opportunity to gain firsthand experience, work with pioneering technologies, and network with industry professionals. Join us from **July 7–18, 2025**, for [this year's Summer School](#) with a focus on **subsea sampling and analysis techniques, including machine learning approaches**.

## What is RoOT?

---

The RoOT Summer School consists of two intensive, hands-on training weeks that bring together experts and young talents from around the world. Participants will not only learn about the latest developments, insights and technologies in the field of ocean research and technology but also have the chance to engage in critical discussions and gain interdisciplinary experience. [Check out some impressions](#) of the previous Summer Schools to get an idea of what you can expect!

## Why participate?

---

- **Excellent learning opportunities:** Participants have the chance to learn from industry experts, renowned scientists, and work with numerous devices and technologies.
- **Networking:** Participants establish valuable contacts with professionals and like-minded individuals, creating a network that can help them in their careers.
- **Practical learning:** In addition to engaging lectures, there are numerous hands-on workshops and excursions, including a trip aboard the research vessel "Limanda", where participants can directly apply what they have learned.
- **Cultural exchange:** Participants experience the maritime flair of the Hanseatic city of Rostock and enjoy international exchanges with each other.

## Who can apply?

---

The RoOT Summer School is aimed at young professionals and early-career academics working in the fields of blue economy, marine science, maritime engineering OR related disciplines. While the course fee and accommodation is covered with a successful application, transport and meals are at your own cost.

## Important dates

---

- **Application deadline:** 16th April, 2025
- **Start of the RoOT Summer School:** 7th July, 2025
- **End of the RoOT Summer School:** 18th July, 2025
